

Quick and Easy Assembly for Bee Hive Frames

To assemble your frame take your top piece and put a small amount of wood glue on each side. Then take the side pieces and stick the wide end on each side of your top piece. Then slide in your honeycomb and put the glue on the end of your side pieces. After that, attach the bottom piece on with the groove on the inside. Next, use a hammer to put the nails in place. Putting 2 nails at each top corner, 3/8 inch apart and one nail on each side of the bottom piece.
